Dear All,

We are very encouraged by the meaningful discussions and inspiring practices shared through Target Gender Equality (TGE) capacity-building workshops all around the world.

The month of November was also marked by some key dates: We celebrated International Men’s Day on 19 November and want to thank all men engaged in TGE for their continuous advocacy and support as allies for women’s empowerment! Women’s Entrepreneurship Day reminded us of the huge funding gap with less than 3% of VC funding in the United States going to female-founded startups last year — despite higher returns on investment. And we’re amidst the “16 Days of Activism Against Gender-based Violence”, an issue that became even more important in recent times of lockdowns and isolation. Data from our TGE COVID-19 Quiz indicates that only 25% of companies have taken action to respond to the increase of domestic violence. For inspiration, check out how Natura&Co supports domestic violence survivors.

We challenge you to keep raising your voice & advocating for gender equality — not only on International Awareness Days but every day in your professional and personal capacities!

- The Gender Equality Team at the UN Global Compact

Top News

Global Compact Network Mexico marked the International Day for the Elimination of Violence against Women & #16DaysOfActivism by organizing a Target Gender Equality workshop with TGE company representatives dressed in orange - check it out!

TGE Participant Vodafone represented by Claudine McMahon, Global Head of Culture and Inclusion speaking at the UN Forum on Business & Human Rights:

"We have made it a priority to provide digital and other support to prevent domestic violence and abuse. A key example is "Apps against Abuse" that connect survivors with support but also raise awareness and give advice. As an employer, we are recognizing that domestic violence and abuse in all of its forms is actually a world of work issue."
Upcoming Events

What's your target?

Capgemini India

Target: Advancing gender balance and ensuring happiness and well-being of our colleagues

“Having a diverse workforce gives an organization the benefit of different perspectives that can power business growth. We believe that by having more women across our ranks, we are more likely to be an empathetic organization and have higher-quality corporate social responsibility initiatives.”

Tribute to Kamal Singh: a true ally for women's rights
Tribute to Kamal Singh: a true ally for women's rights

With deep sadness the Global Compact announced the passing of Kamal Singh, the Executive Director of Global Compact Network India. Kamal played a key role in forging relationships with UN agencies in India, including fostering a strong partnership with UN Women. Kamal was one of the most active and energetic members of the Global Compact family, and a passionate advocate for women's rights. Under Kamal's leadership the Network’s Annual Gender Equality Summit was born. He will remain an inspiration as we advance TGE, and will be deeply missed.

"Gender Equality is the key differentiator for sustainable growth. We need to address the challenges women are specifically facing during these times of COVID-19 and find ways how we as leaders can support our female employees during and post COVID-19."

- Kamal Singh
